

SANTA MARIA
COLLEGE

Co-Curricular Program

At Santa Maria College, co-curricular activities are integral to a holistic education and offer a richness to student life.

The diverse range of activities encourages students to discover and develop their individual talents, skills and interests, assists in identification with the College and helps establish a sense of belonging and self-worth.

Service, Academic, Cultural and Sporting groups and activities encourage participation and team work, build self-confidence and creativity, develop strong peer relationships and provide opportunities to accept and exercise leadership. All students at the College engage in at least one co-curricular activity per term, with many participating in numerous activities across a range of areas.
